Vision.

- Be a leading force in the IT industry
- Recognized for commitment to innovation and excellence
- Envision a future with seamless technology integration
- Make technology accessible and beneficial for everyone

Solution Business.

Datanusa is ready to support and expedite the digital transformation of its customers, from microbusinesses to enterprises, by offering the eight pillars of solution, consisting of

Secure.

Integrated Physical & Cyber Security

Providing 360-degree protection by combining physical surveillance (CCTV, turnstiles, and perimeters) with robust cybersecurity measures to safeguard your physical premises and digital assets.

Aero.

Advanced Drone Solutions Delivering precision UAV services for aerial mapping, site inspections, and industrial monitoring using state-of-the-art drone technology.

Infra.

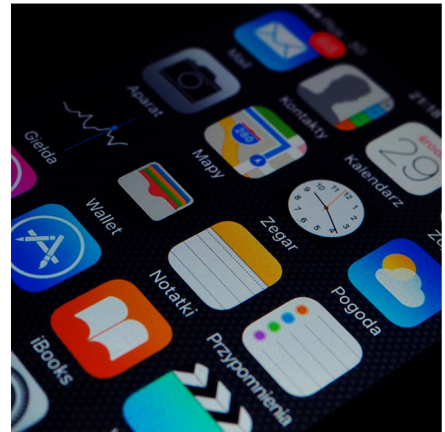

Critical Infrastructure & Power Designing and managing high-availability data centers, enterprise networking, and resilient UPS power systems to ensure business continuity.

Software.

Software Licensing & Deployment

Streamlining your digital ecosystem through expert software deployment and official enterprise licensing management.

Supply.

IT Hardware Procurement Your strategic partner for sourcing enterprise-grade hardware, from high-performance servers to essential corporate workstations.

Managed.

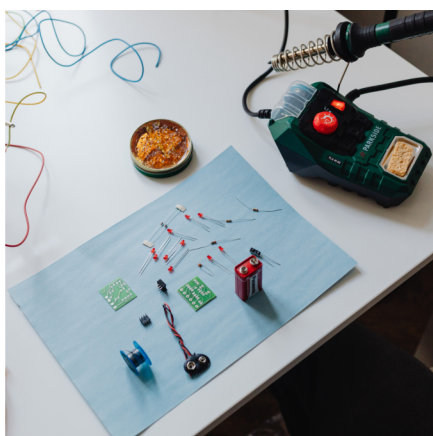

Managed IT Services Empowering your business with comprehensive IT outsourcing, remote monitoring, and proactive technical support.

Waves.

Professional Radio Communication

Specializing in reliable radio frequency (RF) solutions and wireless communication systems for mission-critical connectivity.

Care.

Repair & Maintenance Services Ensuring long-term reliability through expert hardware repairs, preventive maintenance, and rapid technical servicing.
